

# 2-DAY LIVE VIRTUAL CME CONFERENCE

**PLEASE JOIN US**

**For a 2-day virtual live interactive conference**

**Saturday, October 24<sup>th</sup>**

**8:30am – 3pm**

**3:30pm – 5:00pm**

**Sunday, October 25<sup>th</sup>**

**8:00am – 4:00pm**

**Kaiser-Din Foundation is an approved provider of CE in Podiatric Medicine by the CPME**

**This event is estimated at 14 CE hours.**

**No commercial support for these education sessions has been obtained.**

**No refund will be available after the payment is processed.**

**REGISTER ONLINE AT: [KaiserDinFoundation.com](http://KaiserDinFoundation.com)**

## **Saturday October 24**

7:30 AM – 8:30 AM – Breakfast & Registration

8:30 AM – 8:45 AM – Nicholas Petruzzi, MD  
Welcome and Opening Remarks

8:45 AM – 9:00 AM – Michael Schmidling, MD  
Peripheral Arterial Disease and Critical Limb Ischemia

9:00 AM – 9:15 AM – Rajesh Patel, MD  
Superficial Venous Disease

9:15 AM – 9:30 AM – Matthew Samra, DO  
Open Surgical Interventions for PAD

9:30 AM – 9:45 AM – Nadia Din, DPM  
Peripheral Vascular Disease in Women

9:45 AM – 10:00 AM – Jacinto Camarena III, MD  
Contrast Nephropathy and alternative contrast agents

**10:00 AM – 10:15 AM – Coffee Break with Q/A**

- 10:15 AM – 10:45 AM – Micah Watts, MD  
Live Case  
*Panel Discussion including: Samra, Mustafa, Block, Petruzzi*
- 10:45 AM – 11:00 AM – Christopher Kim, MD  
Interesting Case Review and Discussion
- 11:00 AM – 11:15 AM – Manish Trivedi, MD  
Current Diagnosis & Treatment in Infectious Diseases
- 11:15 AM – 11:30 AM – Nicholas Petruzzi, MD  
Interesting Cases Review & Discussion, Part II
- 11:30 AM – 12:00 PM – Micah Watts MD  
Live Case  
*Panel Discussion including: Alan, Block, Schmidling, Petruzzi*
- 12:00 PM – 12:45 PM – Nicholas Petruzzi, MD**  
**Q/A session with Lunch Break**
- 12:45 PM - 1:00 PM - Christopher Kim, MD  
Artery Embolization aka Flow to the other Toe
- 1:00 PM – 1:15 PM - Fadi Saab MD / Jihad Mustapha MD  
Varicose Vein treatment in the Lower Extremities
- 1:15 PM – 1:30 PM – Lori Richwine, DO  
Overview of Wound Care and Hyperbaric Therapy
- 1:30 PM - 1:45 PM – Michael Plishchuk DPM & Girish Nair DPM  
Chronic Foot Wound Cases
- 1:45 PM – 2:00 PM - Jacinto Camarena III, MD  
Deep Venous Disease and Chronic DVT
- 2:00 PM – 2:15 PM – David Levi, MD  
Imaging of Diabetic Wounds and Osteomyelitis
- 2:15 PM – 2:30 PM – Peter Pryzbylkowski, MD  
Lumbar Spinal Stenosis: Another Reason for Claudication
- 2:30 PM – 2:45 PM – Alan Block, DPM  
Podiatric Intervention and the PAD Patient
- 2:45 PM – 3:00 PM – Bob Beasley, MD  
Novel Tibial Stent platform for CLI
- 3:00 PM – 3:30 PM – Nicholas Petruzzi, MD  
New Endovascular Frontiers in PAD and CLI

3:30- 4:30 – John Herzenberg MD

Ponseti Clubfoot Treatment: Past, Present, and Future

4:30-5:00 - Jennifer D’Amico DPM, Nicole Kaiser DPM, Nadia Din DPM, Jess Addeo DPM  
Clubfoot, a shoe string and a prayer: Incidence and management of  
pediatric foot deformities in the third world.

**5:00 – Happy Hour with Exhibitors**

**Sunday, October 25th:**

7:30 AM – 8:00 AM –Breakfast & Registration

8:00 AM – Nicole Kaiser DPM  
Welcome and Opening Remarks

8:00 – 8:30 - Vince Varghese DO  
Men are from Mars, Women are from Venus: Vascular  
Presentations in Male vs Female

8:30-9:00 - Patrick DeHeer DPM  
Metatarsalgia: A Modern Approach

9:00-9:30 - Matthew Wohlegmuth DPM  
Extreme Limb Salvage

9:30 - 10:30 - Peter Wishnie DPM  
Your Most Valuable Asset-Time: How to Get Time Back in  
Your Life While Scaling Your Practice

**10:30 Exhibitor BREAK**

11:00-11:30 - Kelly Walker Moore PhD  
Understanding Compassion Fatigue in Medical Settings

11:30-12:00 - Angela Savage-Davis DPM, Kelly Walker Moore PhD, Jenifer D’Amico DPM  
(panel)

Physician Burnout: Which Medical Specialties Feel the Most Stress  
and Building Physician Wellness

**12:00 –12:45 Lunch/Exhibitor**

12:45-1:30 - Angelo Luzzi DPM, Howard Shapiro, Robert Floros, Eric Baskin, & Residents  
(panel) Save the Drama for your Llama: Management of OR complications

1:30-2:00 - Howard Shapiro DPM & residents  
Managing the Surgical Disaster Patients

2:00- 2:30 - Robert Floros DPM  
Managing Traumatic Foot & Ankle Injuries

**2:30 Exhibitor BREAK**

3:00-4:00 - Nan Gallagher Esq.  
The COVID Conundrum: Pushing Through Capably & Compliantly

**4:00 Exhibitor BREAK**

## Objectives:

- Describe diagnosis of peripheral vascular disease.
- Discuss treatment options for peripheral vascular disease.
- Apply the latest advancements in vascular imaging into the clinical treatment of patients
- Summarize and implement the latest advances in technology, testing and imaging for the diagnosis and management of peripheral arterial disease
- Describe diagnosis and treatment superficial venous disease
- Discuss and apply new interventional tools and therapeutic options for the treatment of peripheral artery disease.
- Recognize and articulate the importance of peripheral artery disease diagnosis and its relationship to cardiovascular disease.
- Discussed the current diagnosis and treatment of infectious diseases of the lower extremities
- Describe current treatments for chronic wound cases of the lower extremity
- Describe diagnosis and podiatric intervention in the peripheral arterial disease patient
- Summarize and implement new imaging and testing available for peripheral arterial disease
- Appreciate the differences in treatment and women and then with peripheral arterial disease
- Provide a meaningful new look into providing multispecialty experience for the patient in order to provide the most comprehensive care
- Appreciate and reviewed the clinical and surgical significance of the lower extremity as a relevant to the field podiatry, vascular surgery, wound care, limb salvage
- Understand the clinical findings with various types of metatarsalgia and the conservative and surgical treatment options based on underlying cause and etiology of metatarsalgia  
To establish a better understanding on physician burnout compassion fatigue in the medical setting
- To evaluate different surgical techniques and correcting clubfoot
- To appreciate different podiatric and wound care issues in third world countries
- Established length between vascular and podiatric specialists
- To assess and offer better ways to utilize time with patients provide the best care
- To evaluate different techniques the wound flaps for limb salvage and better wound healing
- To understand and nuances of medically treating the patient in the operating room and complications arise
- To understand management of surgical complications
- To understand bio-ethics on real life scenarios of the medical setting
- To understand treating patients safely through COVID pandemic
